2. Once you click "Connect", you will be presented this page and you will need to click "Proceed" at the bottom of the window:

Connect to: Vanderbilt University SSL VPN		
Pre Sign-In Notification		
Multi-factor Authentication (MFA) is now required	i for Pulse VPN	
for more information please visit:		
https://it.vanderbilt.edu/mfa		
MFA provides an additional layer of security for use	ers logging in to a secure	
Vanderbilt University uses Duo Security as its MFA s	solution. Duo makes	
authentication easy by allowing individuals to		
verify their identity via mobile app, hardware token	n, text message, or phone call.	
Why secure VPN (Pulse Secure)?		
 To protect against credential theft 		
 To achieve regulatory compliance To gain visibility to all devices on the network 		
 Navigate to https://livendethilicedu/afe Click Taroll New!" Sign in using your WheelD and epasword. Click Taroll setup." Select a device type 4 follow the prompts. If using a smarphone or tablet, proceed with steps On your device, download the Doo Mobile app from 	6-11. the App Store or Google Play.	
8. Using your phone, scan the code on the screen.		
9. On the enrollment successful screen, Click Dismis	is	
down.	an in one when I log in drop	
11. Click Save.		
If you have issues enrolling, contact the Help Desk https://it.vanderbilt.edu/mfa	at 615-343-9999 or visit:	

3. Once you click "Proceed", you will be prompted with the initial login page where you will enter your VUNet ID and e-Password and click "Connect":

onnect to: Vanderbilt University SSL VPN	
?	Provide the following credentials to complete the connection
	User Name:
	Password:

4. After you enter your information and click "Connect", you will be prompted with a second login page and in the Secondary Password field, type "push", which will appear as 4 dots as you type.

5. Click "Connect" and a DUO Mobile push will be sent to your registered device:
